Our Process:

Assemble the best ingredients (the class); combine in the best pot you have (Room 207); use the best stove you know (Foundry UMC); apply heat (the teachers); and stir (our faith); results bring TRANSFORMATION!

For each letter in the word “Transformation” the 4th and 5th grade class listed several concepts, words, or phrases to express their understanding of what it means *to be transformed* or what is required *to make transformation happen*. After we compiled the comprehensive list and held lively discussions, we all voted on the one word or phrase that especially captured what we wanted to say via the acrostic poem below. We hope you enjoy reading it.
